Full Color Sublimation

Sublimation uses a clay-based, heat sensitive toner to produce a transfer that is heat set to a polymer (plastic) coated surface making the image permanent. This allows for full color printing on a multitude of items.

Custom Picture Framing

All work is performed right here on Schriever SFB! Save an average of 10% compared to "downtown" prices. Our Wizard computerized mat cutter has the ability to perfectly cut various size and shape openings into a mat. Custom pick your materials (frame, glass and mats) to build the perfect framed picture.
